## Bachelor study program

# MANAGEMENT SCIENCE

### About the program

The course trains skilled professionals by providing a solid background in the social science and holistic knowledge in management science. This enables graduates to strengthen and consolidate their academic and professional skills in further studies in Master level, have a job in industrial companies and community services or work in international and country scale projects teams. Visiting professors from partner universities will be involved as teachers and advisors in the program. Students have an opportunity participate in Erasmus mobility for studies and traineeship. Course lasts 3 years, corresponding to 180 ECTS. Course structure consists of 3 parts

- Part A – compulsory courses (general)
- Part B – elective courses (specialization)
- Part C – selective courses
